

Poster presentations

Poster nr.	Abstract ID	Title	Presenting author and country
T001	1984	Characterization of NFATc1/Smad3 complexes in pancreatic cancer	Marie Christin Hasselluhn, Germany
T002	1794	Sequential or concomitant application of PI3K isoform signal targeted therapies enhances cell death by preventing their cross-redundancy in pancreatic ductal adenocarcinoma	Julie Guillermet-Guibert, France
T003	1808	Positive feedback loops of enhanced canonical Wnt confers stemness traits to pancreatic cancer cells	Matthias Ilmer, Germany
T004	1702	The role of Pdk1-dependent signalling pathways in pancreatic cancer	Felix Hesse, Germany
T005	1902	Up-regulation of sialyltransferases increases lymphatic metastasis in pancreatic cancer via the integrin-mediated pathway	Wen-Chun Hung, Taiwan
T006	2004	Epithelial-specific E3 ligase CBLC regulates differentiation and motility of pancreatic cancer cells	Kai Hu, Germany
T007	2000	E2F-1 induced MCAK overexpression promotes the proliferation and gemcitabine resistance of pancreatic cancer cells	Yunpeng Peng, China
T008	1903	Fibroblastic FAK controls pancreatic cancer metastasis by enhancing extracellular matrix remodeling	Christine Jean, France
T009	1952	Loss of 4E-BP1-mediated translational control favors DNA replication in pancreatic cancer	David Müller, France
T010	1950	Mir-502 regulates non-homologous end joining (NHEJ) and reduces radioresistance in human pancreatic cancer cell line	Agnieszka Smolińska, Germany
T011	1811	Comparative bioenergetics of pancreatic acinar cells and pancreatic cancer cells	Helen Tanton, United Kingdom
T012	1928	The impact of pancreatic cancer cell exosomes on the phenotype of pancreatic cancer cells	Stuart Robinson, United Kingdom
T013	2085	Two contrasting gemcitabine resistance mechanisms involving ribonucleotide reductase and cyclin D1b	Kulbir Mann, United Kingdom
T014	1814	Metabolic reprogramming of fibroblasts to enhance gemcitabine availability in murine pancreatic cancer	Melanie S. Patzak, Germany
T015	1735	Modelling the tumour microenvironment in pancreatic ductal adenocarcinoma	Sarah Brumskill, United Kingdom
T016	1931	In vitro comparative analysis of Circulating Tumour Cells detection in liquid biopsy for the diagnosis of pancreatic adenocarcinoma	Etienne Buscaïl, France
T017	2102	FAM3C constitutes a potential serum marker for ALDH1A3-positive pancreatic ductal adenocarcinoma	Jan Akkan, Germany
T018	2091	Characterization of IGF2BP proteins in pancreatic neuroendocrine neoplasms	Florian Sperling, Germany
T019	1769	Vitamin D: foe of the immune response in pancreatic cancer	Stefania Moz, Italy
T020	1849	Interleukin (IL) 10 and Pyridone 6 (P6) modify the migration of pancreatic cancer cells in co-cultures with macrophages	Hanna Seppänen, Finland
T021	1874	NF- κ B in pancreatic cancer stroma suppresses anti-tumor immunity	Bharti Garg, United States

Poster nr.	Abstract ID	Title	Presenting author and country
T022	1778	NR2F2 isoforms switch regulates epithelial to mesenchymal transition in pancreatic cancer	<i>Simone Polvani</i> , Italy
T023	1946	Recapitulation of a progenitor-like transcriptional profile in pancreatic carcinogenesis is initiated by the epigenetic modifier Ring1b	<i>Simone Benitz</i> , Germany
T024	2051	NUPR1 deficiency induces metabolic cell death	<i>Patricia Santofimia Castaño</i> , France
T025	1971	Anterior gradient 2 promotes early pancreatic carcinogenesis by mitigating ER stress	<i>Zhiheng Zhang</i> , Germany
T026	1760	Pancreatic duct ligation in a Kras murine model of pancreatic adenocarcinoma reduces the number and the risk of appearance of premalignant lesions over time	<i>Marta Caceres</i> , Spain
T027	1973	Transcriptional promotion of a pro-tumorigenic environment in pancreatic cancer	<i>Marius Brunner</i> , Germany
T028	2066	Role of oncogenic EZH2 histone methyltransferase activity in PDAC cellular plasticity	<i>Shilpa Patil</i> , Germany
T029	2044	Controlling BMP/MUSA1 axis to prevent cancer cachexia	<i>Lucia Moletta</i> , Italy
T030	2132	Peritumoral adipose tissue lipolysis activates the lymphatic system to promote PDAC-associated cachexia	<i>De Toni Fabienne</i> , France
T031	1909	Characterization of pancreatic stellate cells in pancreatic ductal adenocarcinoma and cases of chronic pancreatitis of various etiologies	<i>Lena Haeberle</i> , Germany
T032	2021	Pancreatic stellate cells increase cancer cell expression of HMG A2 in a 3D co-culture model of pancreatic cancer	<i>Jessica Norberg</i> , Sweden
T033	2080	A reliable and accurate algorithm to quantify the tumor stroma (QTS) across tumor entities	<i>Rainer Christoph Miksch</i> , Germany
T034	2097	Reversing pancreatic cancer immunosuppression through pharmacological targeting of activated pancreatic stellate cells	<i>Corinne Bousquet</i> , France
T035	1772	SMAD4 related transfer through exosomes of glycolytic enzymes and miR-1260a underlies the reverse Warburg effect in PDAC	<i>Sara Furlanello</i> , Italy
T036	1807	MicroRNAs as bile-based biomarkers in biliary-tract cancers	<i>Mireia Mato Prado</i> , United Kingdom
T037	1823	CTRC gene polymorphism may be a risk factor for pancreatic cancer - preliminary study	<i>Stanislaw Gluszek</i> , Poland
T038	1845	Towards circulating microRNA detection using fluorescence-based nanofluidic platform for the early diagnosis of pancreatic cancer	<i>Jean Cacheux</i> , France
T039	1985	Functional role of microRNA-93 in pancreatic ductal adenocarcinoma	<i>Elena Vila</i> , Spain
T040	1878	Cellular deconvolution and expression analysis of stromal and epithelial cells directly isolated from human pancreatic ductal adenocarcinoma (PDAC)	<i>Elisa Espinet</i> , Germany

49th EPC Meeting

June 28 – July 1, 2017
Budapest, Hungary

Thursday, June 29, 2017

Poster nr.	Abstract ID	Title	Presenting author and country
T041	2116	High infiltration of CD3+ and CD8+ T-lymphocytes correlate with improved overall survival and disease free survival in pancreatic cancer	<i>Rainer Christoph Miksch, Germany</i>
T042	1786	Immune-mediated therapy of pancreatic carcinoma: strategies to prevail over T cell exhaustion	<i>Alina Hanlon, Germany</i>
T043	1739	Operative treatment strategy for pancreatic cancer is highly region depended: a Finnish register study covering the entire nation	<i>Reea Ahola, Finland</i>
T044	1741	Lower mortality rates after pancreas surgery are achieved only when the operation is performed in a high-volume center. A nationwide study in Finland 2012-2014	<i>Reea Ahola, Finland</i>
T045	1810	The development of multi-layer gemcitabine eluting membrane using ultrasonic spray coating technique	<i>Jin-Seok Park, South Korea</i>
T046	1827	The prognostic value of mural nodules and their size in IPMN of the pancreas: high-volume center experience, systematic review and meta-analysis	<i>Giovanni Marchegiani, Italy</i>
T047	1910	Morphologic characterization of pancreatic ductal adenocarcinoma after neoadjuvant therapy	<i>Lena Haeberle, Germany</i>
T048	2045	CA19-9 response combined with CT-imaging accurately predicts resectability of locally advanced pancreatic carcinoma following neoadjuvant chemotherapy	<i>Eran van Veldhuisen, The Netherlands</i>
T049	2071	Gemcitabine resistant pancreatic cancer cells are sensitive to paclitaxel treatment	<i>Tessa Le Large, The Netherlands</i>
T050	2049	EMT and chemoresistance in pancreatic cancer: role of LOXL2 and TGF_R2	<i>Katarzyna Gardian, Poland</i>
T051	1724	Enhanced recovery program following pancreatoduodenectomy	<i>Victoria Ganzha, Ukraine</i>
T052	1722	Upregulation of ABC transporters involved in cholesterol homeostasis may play role in pancreatic cancer development and progression	<i>Beatrice Mohelnikova-Duchonova, Czech Republic</i>
T053	1925	TLR2 and TLR4 predict favourable prognosis in early pancreatic cancer	<i>Mira Lanki, Finland</i>
T054	2002	Rare BRCA2 K3326X increases susceptibility to sporadic pancreatic ductal adenocarcinoma: a PANDORA study	<i>Ofure Obazee, Germany</i>
T055	2014	Pancreatic carboxyl-ester lipase (CEL) can present ABO blood group determinants with potential implications for cancer cell recognition	<i>Khadija El Jellas, Norway</i>
T056	2120	Affinity proteomic profiling of plasma identifies organ-specific proteins associated to pancreatic cancer	<i>Jochen M. Schwenk, Sweden</i>
T057	1864	TERC AND C-MYC copy number gain in intraductal papillary mucinous neoplasms (IPMNs): promising biomarkers of progression to malignancy	<i>Eisa Grassi, Italy</i>
T058	1805	The regulatory role of PTEN and LKB1 on mTOR pathway in pancreatic neuroendocrien tumors	<i>Hui-Jen Tsai, Taiwan</i>

Poster nr.	Abstract ID	Title	Presenting author and country
T059	1792	Cadmium and human pancreatic cancer - is there a connection?	<i>Vladimir Djordjevic</i> , Serbia
T060	2039	Extended surgery in patients with locally advanced pancreatic cancer	<i>Liudmila Pererva</i> , Ukraine
T061	2123	IGF-II and NSC-631570 compounds affect PMP22 gene expression in pancreatic ductal adenocarcinoma. Could be the new target for both chemo-resistance and neuronal invasion?	<i>Nicola Funel</i> , Italy
T062	1725	Reprogramming cancer associated fibroblasts as a therapeutic approach against pancreatic ductal adenocarcinoma	<i>Magdolna Djurec</i> , Spain
T063	2007	Clinical features and outcomes of pancreatic cancer patients evaluated for microRNAs as biomarkers of response to treatment during FOLFIRINOX therapy	<i>Chiara Caparello</i> , Italy
T064	1806	Diagnostic value of ultra-deep targeted next-generation sequencing in patients with suspect pancreatic and periampullary lesions	<i>Babs Sibinga Mulder</i> , The Netherlands
T065	2020	Main pancreatic duct dilation above 6 mm and supraliminal preoperative ca19.9 levels increase the risk for high grade dysplasia and cancer in patients with IPMN	<i>Zeeshan Ateeb</i> , Sweden
T066	2015	Mutations of CFTR, but not of SPINK1 elevate the risk for pancreatic cancer: a meta-analysis	<i>Irina Mihaela Cazacu</i> , Romania
T067	2067	Prognostic impact of VEGF, MMP-2 and TGF detection in pancreatic ductal adenocarcinoma	<i>Pavel Skalicky</i> , Czech Republic
T068	2140	Elevation of CA 19-9 in benign non-pancreaticobiliary diseases	<i>Byung Kyu Park</i> , South Korea
T069	1696	Prognostic role of Hedgehog signaling pathway markers in pancreatic carcinogenesis	<i>Katarzyna Winter</i> , Poland
T070	2033	Preoperative inflammatory markers in pancreatic surgery as predictors for post-operative complications and survival: results of a multicentric retrospective European study	<i>Gennaro Nappo</i> , France
T071	1886	Role of intratumoral expression of thymidylatesynthase in patients with pancreatic cancer on adjuvant gemcitabine and tegafur regimen	<i>Oleksiy Dronov</i> , Ukraine
T072	1841	Balance between tumour-associated and host-associated factors in the microenvironment of pancreatic cancer: lessons learned from the long-term survivors	<i>Eva Karamitopoulou-Diamantis</i> , Switzerland
T073	1840	Dysregulation of microRNAs in the tumour microenvironment and phenotypic variation of pancreatic cancer with prognostic significance	<i>Eva Karamitopoulou-Diamantis</i> , Switzerland
T074	1763	Differences between the serum protein profile of pancreatic cancer and chronic pancreatitis	<i>Hanna Seppänen</i> , Finland
T075	1897	Mutation profiles in long-term survivors with pulmonary metastases from pancreatic ductal adenocarcinoma	<i>Masato Ono</i> , Japan
T076	2022	Association between gallbladder disease and pancreatic cancer risk according to tumour characteristics	<i>Esther Molina-Montes</i> , Spain

49th EPC Meeting

June 28 – July 1, 2017
Budapest, Hungary

Thursday, June 29, 2017

Poster nr.	Abstract ID	Title	Presenting author and country
T077	2035	The severity of neural invasion predicts the incidence of local recurrence and has a major impact on overall and disease-free survival in pancreatic cancer	Anouk Brock, Germany
T078	2121	Lymph node ratio, tumour volume but not size are a good prognostic factors after resection of pancreatic ductal adenocarcinoma: analysis of high volume centre	Julia Ksenia Tuchalska-Czuron, Poland
T079	2001	Risk prediction for pancreatic fistula and risk-stratified strategy for prophylactic intraabdominal drainage after Whipple's procedure	Yi Miao, China
T080	2141	Prognostic impact of the number of positive lymph nodes and lymph node ratio on the outcome of patients after resection of pancreatic adenocarcinoma	Stefan Kmezcic, Serbia
T081	2046	Para-aortic node involvement is not an independent predictor of survival after resection for pancreatic cancer	Lucia Moletta, Italy
T082	1998	Prognostic nomogram for resected pancreatic adenocarcinoma	Kuirong Jiang, China
T083	1996	Predictors for distant metastasis in patients with potentially resectable pancreatic cancer based on MDCT	Jishu Wei, China
T084	1989	The presence of high grade pancreatic intraepithelial neoplasia correlate with size and histological grade of pancreatic ductal adenocarcinoma	Mihailo Bezmarevic, Serbia
T085	1855	Factors influencing glycemic control following pancreatectomy for cancer	Paula Senra Del Rio, Spain
T086	1799	Statin use decreases the risk of pancreatic cancer occurrence: a meta-analysis	Livia Archibugi, Italy
T087	1789	Prognostic nutrition index predict the recurrence of the patients who underwent curative surgery for pancreas ductal adenocarcinoma	Shigeki Nakagawa, Japan
T088	1877	Prognostic impact of preoperative NLR, CEA, and CRP in resectable pancreatic ductal adenocarcinoma (PDAC)	Masayuki Furukawa, Japan
T089	2139	Comparison of liquid-based cytology (CellPrepPlus_) and conventional smears in pancreaticobiliary cytology	Joung-Ho Han, South Korea
T090	1825	Characterization of pancreatic intra and extra-lobular fat by MALDI imaging: correlation with pancreatic precancerous lesion in human people	Chloé Martineau, France
T091	2115	22G standard needle EUS-FNA core histology in practice performance evaluation	Marcel Gheorghiu, Romania
T092	1892	Diagnostic performance and factors influencing the accuracy of EUS-FNA for pancreatic adenocarcinoma	Rui Gaspar, Portugal
T093	1967	Role of contrast-enhanced endoscopic ultrasonography in the diagnosis and differentiation of pancreatic cysts	Miruna Olar, Romania
T094	1820	Accuracy of preoperative diagnosis with endoscopic ultrasound (EUS) and/or magnetic resonance cholangiopancreatography (MRCP) in surgically resected cystic pancreatic lesions (CPL)	Laura Uribarri-Gonzalez, Spain

Poster nr.	Abstract ID	Title	Presenting author and country
T095	1711	Short-term outcomes and risk factors for pancreatic fistula after pancreatic enucleation: single-center experience of 142 patients	<i>Xing Wang, China</i>
T096	1701	The results of the diagnosis and surgical treatment of tumors, localized in left anatomical segment of the pancreas	<i>Oleh Tkachuk, Ukraine</i>
T097	2142	Study of metabolic reprogramming during pancreatic cancer progression: metabolism of branched chain amino acids	<i>Victoire Gouirand, France</i>
T098	1784	Meta-analysis on recurrence after curative surgery of pancreatic neuroendocrine tumors	<i>Cansu Genc, The Netherlands</i>
T099	1856	Current treatment reality of pancreatic adenocarcinoma	<i>Maximilian Kordes, Sweden</i>
T100	1991	Systematic review and meta-analysis of prognostic role of splenic vessels infiltration in resectable pancreas cancer	<i>Alessandra Nella Piccioli, Italy</i>
T101	1749	Evaluation and proposal of novel resectability criteria for pancreatic cancer established by the Japan Pancreas Society	<i>Suguru Yamada, Japan</i>
T102	2013	Metachronous pulmonary metastasis after resection of pancreatic ductal adenocarcinoma. Different clinical scenarios. Retrospective study. Supported by Ministry of Health CR (16-28375A)	<i>Martin Lovecek, Czech Republic</i>
T103	1882	Is surgery the best treatment for reducing years of life lost due to sporadic small (≤ 2 cm) non-functioning pancreatic neuroendocrine tumours? A single centre experience	<i>Carlo Alberto Pacilio, Italy</i>
T104	2103	Safety of intraoperative pancreatoscopy for the investigation of main pancreatic duct involvement and assessment of skip lesions in operated main duct involving IPMNs: a feasibility study	<i>Urban Arnelo, Sweden</i>
T105	2072	Clinical impact of lymph node involvement in IPMN cancer	<i>Asif Halimi, Sweden</i>
T106	1821	Agreement among magnetic resonance cholangiopancreatography (MRCP) and endoscopic ultrasound (EUS) in the evaluation of morphological features of intraductal papilar mucinous intraductal neoplasm (IPMN)	<i>Laura Uribarri-Gonzalez, Spain</i>
T107	1949	Surgical management of main duct IPMN and mixed type IPMN: an international survey and case-vignette study among experts	<i>Lianne Scholten, The Netherlands</i>
T108	2017	International Consensus Guidelines and American Gastroenterological Association guidelines for the prediction of advanced pancreatic intraductal papillary mucinous neoplasms (IPMNs)	<i>Filipe Vilas-Boas, Portugal</i>
T109	2108	Pancreatectomy with vascular resection for IPMN-cancer is safe and with comparable long-term results as conventional pancreatectomy.	<i>Elena Rangelova, Sweden</i>
T110	2106	Diagnostic yield of intraoperative pancreatoscopy for the investigation of pancreatic IPMNs	<i>Roberto Valente, Sweden</i>
T111	1718	Inverse probability of treatment weighting analysis of upfront surgery versus neoadjuvant chemoradiotherapy followed by surgery for pancreatic adenocarcinoma with arterial abutment	<i>Tsutomu Fujii, Japan</i>

Poster nr.	Abstract ID	Title	Presenting author and country
T112	1908	Outcome of surgical resection after neoadjuvant peptide receptor radionuclide therapy (PRRT) for pancreatic neuroendocrine neoplasms: a case-matched analysis	<i>Francesca Muffatti</i> , Italy
T113	1961	Pancreatectomy for pancreatic incidentalomas: what are the risks?	<i>Morgane Bouquot</i> , France
T114	1881	The impact of neoadjuvant therapy on postoperative complication in pancreatic ductal adenocarcinoma: a systematic review with meta-analysis	<i>Stephan Schorn</i> , Germany
T115	1873	The histopathological effect of neoadjuvant therapy on human pancreatic cancer	<i>Carmen Mota</i> , Spain
T116	1846	Neoadjuvant therapy offers longer survival for pancreatic cancer patients over upfront surgery	<i>Anna Nurmi</i> , Finland
T117	1832	Neoadjuvant therapy followed by resection versus upfront resection for pancreatic cancer: the actual spectrum and clinical burden of postoperative complications	<i>Stefano Andrianello</i> , Italy
T118	1982	A randomized phase 2 trial of nab-paclitaxel plus gemcitabine, ± capecitabine, cisplatin (PAXG regimen) in unresectable or borderline resectable pancreatic adenocarcinoma: the ghost regimen strikes back	<i>Domenico Tamburrino</i> , Italy
T119	1788	Efficacy and safety of postoperative anticoagulation therapy with enoxaparin in patients undergoing pancreatic surgery: a prospective clinical trial	<i>Daisuke Hashimoto</i> , Japan
T120	1921	Encouraging observed 5-year survival with upfront resection and adjuvant therapy for pancreatic ductal adenocarcinoma in a large contemporary series	<i>Oliver Strobel</i> , Germany
T121	1727	Surgical site infections after pancreatic surgery in the era of enhanced recovery protocols	<i>Gaëtan-Romain Joliat</i> , Switzerland
T122	1983	Indicators of survival in patients treated with primary chemotherapy for non-metastatic pancreatic adenocarcinoma	<i>Domenico Tamburrino</i> , Italy
T123	1699	The 2016 update of the definition and grading of POPF: clinical validation on 775 consecutive pancreatic resections	<i>Giovanni Marchegiani</i> , Italy
T124	1762	A matched-pair analysis of total pancreatectomy versus pancreaticoduodenectomy in patients with pancreatic ductal adenocarcinoma: a single centre experiment in China	<i>Junjie Xiong</i> , China
T125	1883	Minimally invasive pancreatico-duodenectomy: which is the good "way"? Systematic review and network meta-analysis of non randomized comparative studies	<i>Giovanni Taffurelli</i> , Italy
T126	1729	A new, simple and safe pancreaticojejunal anastomosis. Three grade B pancreatic leaks after 100 consecutive procedures	<i>Viacheslav Egorov</i> , Russia
T127	1842	Surveillance for pancreatic cancer in high-risk individuals: first-round screening results of a multicentric Italian program	<i>Salvatore Paiella</i> , Italy
T128	2117	A personal invagination pancreaticojejunostomy technique after pancreaticoduodenectomy: description, technical details and results	<i>Luca Morelli</i> , Italy

Poster nr.	Abstract ID	Title	Presenting author and country
T129	1817	Treatment of postoperative chyle leak after pancreatic surgery - a single center experience	<i>Maximilian Weniger, Germany</i>
T130	2114	Ishikawa type B adenocarcinoma of the pancreatic head: duodeno-pancreatectomy without vascular resection an oncologically acceptable option?	<i>Luca Morelli, Italy</i>
T131	2101	Pylorus preserving duodenopancreatectomy with pancreaticogastrostomy-initial experiences	<i>Aleksandar Ninic, Serbia</i>
T132	2081	Radiofrequency assisted pancreaticoduodenectomy for locally advanced pancreatic adenocarcinoma - a novel approach	<i>Kumar Jayant, United Kingdom</i>
T133	2059	One hundred and fifty total laparoscopic pancreatoduodenectomy for patients with tumors of the head of the pancreas and the periampullare area	<i>Pavel Tyutyunnik, Russia</i>
T134	1709	Formation of biliodigestive anastomoses by the method of high-frequency electric welding of tissues in pancreatic head tumor	<i>Hutsuliak Andriy, Ukraine</i>
T135	1680	Robotic pancreatic surgery: our initial experience	<i>Marco Vito Marino, Italy</i>
T136	1691	Operations on the pancreas using robotic complex. Single centre experience	<i>Stanislav Berelavichus, Russia</i>
T137	1935	Intraoperative use of confocal laser microscope (CLM) in pancreas surgery	<i>Petr Moravčik, Czech Republic</i>
T138	1796	A study on the relationship between pancreatic transection line positioning and postoperative diabetes mellitus in patients undergoing distal pancreatectomy	<i>Kitataka Tanaka, Japan</i>
T139	1694	EUS-guided ethanol ablation for pancreatic cysts: is it really better than natural course?	<i>Jikon Ryu, South Korea</i>
T140	1871	Radical antegrade modular pancreatectomy (RAMPS) increases the survival after resection of pancreatic ductal adenocarcinoma located in the pancreatic body and tail	<i>Uwe Wittel, Germany</i>
T141	2079	Pediatric pancreatic surgery: a feasibility study on outcomes in a high volume center	<i>Chiara Maria Scandavini, Sweden</i>
T142	1951	Perioperative hydrocortisone treatment reduces postoperative pancreatic fistula after distal pancreatectomy. A randomized controlled trial	<i>Anne Antila, Finland</i>
T143	2077	Pancreatic cancer in patients with autoimmune pancreatitis: a scoping review	<i>Peter Macinga, Czech Republic</i>
T144	1885	Do intraperitoneal drainages influence postoperative outcome of patients undergoing pancreas resections? A systematic review with meta-analysis	<i>Stephan Schorn, Germany</i>
T145	1884	Is pancreaticogastrostomy safer than pancreaticojejunostomy after pancreaticoduodenectomy? A meta-regression analysis of randomized clinical trials	<i>Giovanni Taffurelli, Italy</i>
T146	1831	Does the surgical waiting list affect pathological and survival outcome in resectable pancreatic ductal adenocarcinoma?	<i>Giampaolo Perri, Italy</i>

49th EPC Meeting

June 28 – July 1, 2017
Budapest, Hungary

Thursday, June 29, 2017

Poster nr.	Abstract ID	Title	Presenting author and country
T147	2028	Secondary primary malignancies among pancreatic cancer survivors. Single center experience	<i>Tharani Yogeswara, Czech Republic</i>
T148	1999	Pancreatic metastatic tumor: surgical treatment and its value	<i>Junli Wu, China</i>
T149	2029	Autologous peritoneum graft if vascular resection is required I pancreatoduodenectomy	<i>Catarina Amorim Aguiar, Portugal</i>
T150	2032	Cancer recurrence or benign obstruction? Diagnosis and therapy of jaundice after pylorus-preserving pancreatoduodenectomy	<i>Bin Xiao, China</i>
T151	1923	Pancreatic intraepithelial neoplasia (PanIN) in resected pancreatic cancer	<i>Marco Silva, Portugal</i>
T152	1770	Utility of cystic fluid cytological analysis in the evaluation of pancreatic cystic lesions	<i>Ilenia Barbuscio, Italy</i>
T153	1934	Microbiopsies from pancreatic cysts - a novel approach to obtain a preoperative diagnosis	<i>Charlotte Rift, Denmark</i>
T154	2092	Use of a novel through-the-needle micro-biopsy forceps in diagnosing pancreatic cysts	<i>Bojan Kovacevic, Denmark</i>
T155	1979	Ten years of post-operative pancreatic fistula (POPF) definition (2005-2016). Does the new classification really change something?	<i>Gennaro Nappo, Italy</i>
T156	1922	Prevalence of incidental intraductal papillary mucinous neoplasm: Bologna experience	<i>Giovanni Taffurelli, Italy</i>
T157	1732	Does it matter which name you choose duodenal dystrophy, groove, or paraduodenal pancreatitis? Lessons of 75 cases	<i>Viacheslav Egorov, Russia</i>
T158	1880	Intraductal papillary mucinous neoplasms: the Bologna experience. Lessons learned from 357 cases observed in a tertiary care center	<i>Carlo Alberto Pacilio, Italy</i>
T159	2042	Intraductal papillary mucinous neoplasm arising in gastric ectopic pancreas	<i>Ildikó Illyés, Hungary</i>
T160	1914	Solid pseudopapillary tumor of pancreas with anomaly of hepatic portal vein in young female patient: case report	<i>Emilija Nikolovska, Macedonia</i>
T161	1703	Selective surgical management of pancreatic neuroendocrine tumors	<i>Ayrat Kaldarov, Russia</i>
T162	1890	Neuroendocrine tumors of the ampulla of Vater	<i>Anna Caterina Milanetto, Italy</i>
