

Program at a glance – Wednesday, June 28, 2017

Time	Venue	Presentation type	Topic	Lecture title	Speaker
10:00–18:30	Foyer	Delegate registration			
12:30–13:30	Szent-Györgyi Room	Free paper oral presentations 1	Clinical pancreatic cancer	as per detailed conference program	
13:30–14:30	Szent-Györgyi Room	Free paper oral presentations 2	Clinical chronic pancreatitis	as per detailed conference program	
14:30–15:30	Szent-Györgyi Room	Free paper oral presentations 3	Basic pancreatic cancer	as per detailed conference program	
15:30–16:00	Foyer	Coffee break			
16:00–18:00	Szent-Györgyi Room	Symposium 1	Pancreatic diseases in relation to ion transport disorders and their targeting	Molecular genetics in pancreatitis	Miklós Sahin-Tóth USA
				Cell biology and genetics of pancreatic ductal adenocarcinoma	Paco Real Spain
				Potential transport process targets in pancreatitis and pancreatic cancer	Julia Mayerle Germany
				CFTR, as a target prototype in pancreatic translational research	Péter Hegyi Hungary
19:30–22:00	Pesti Vigadó	Opening ceremony and welcome reception			

49th EPC Meeting

June 28 – July 1, 2017
Budapest, Hungary

Program at a glance – Thursday, June 29, 2017

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker
07:30–19:00	Foyer		Delegate registration		
08:00–08:30	Foyer / mezzanine		Poster hang-up		
08:30–09:00	Szent-Györgyi Room	Keynote lecture 1		Molecular mechanisms of cancerogenesis and therapeutic targeting in the pancreas	Thomas Gress Germany
09:00–10:30	Szent-Györgyi Room	Free paper oral presentations 4	Basic and clinical pancreatic cancer	as per detailed conference program	
10:30–10:50	Foyer		Coffee break		
10:50–12:45	Szent-Györgyi Room	Symposium 2	Pancreatic cancer - from bench to bedside and beyond	Clinical trials for better treatment	Mustapha Adham France
				Pancreatic cysts and IPMN	Marco Del Chiaro Sweden
				Neoadjuvants in pancreatic cancer	Claudio Bassi Italy
				The adventure to introduce new technologies	Rolf Ehrnström Immunovia
				Better drugs for better cure	Pablo del Pino Celgene Europe
12:45–13:05	Foyer / mezzanine		Poster viewing and lunch		
13:05–14:10	Foyer / mezzanine		Poster rounds and discussion 1		

Program at a glance – Thursday, June 29, 2017

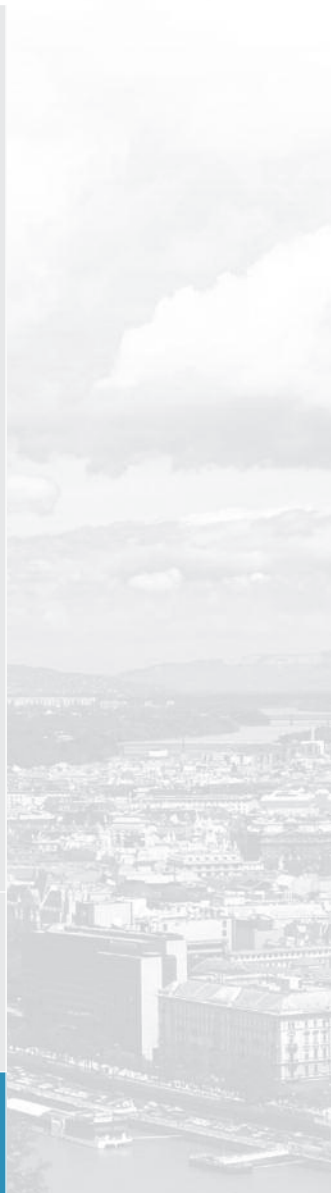

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker	
12:45–14:10	Seminar Room 4-5.	European Study Group meeting				
12:45–14:10	Hári Room	PROMISE Study meeting				
14:10–15:40	Szent-Györgyi Room	Symposium 3 Tandem talks: Controversies on diagnosis and treatment of chronic pancreatitis	Tandem talk 1 Trypsin and Cathepsin controversies	Trypsin and Cathepsin B are completely immaterial in pancreatitis	Ashok K. Saluja USA	
			Tandem talk 2 Endoscopic vs surgical therapy of chronic pancreatitis	Trypsin and Cathepsin B are very important in pancreatitis	Markus M. Lerch Germany	
15:40–16:00	Foyer	Coffee break	Chronic pancreatitis pain should be treated endoscopically			Enrique de Madaria Spain
			Chronic pancreatitis pain should be treated surgically			Mert Erkan Turkey
16:00–17:10	Szent-Györgyi Room	Free paper oral presentations 5	Clinical pancreatic cancer and miscellaneous	as per detailed conference program		
17:10–17:30	Szent-Györgyi Room	EPC Special Award lecture		Chronic pancreatitis: which questions should be answered within the next years?	Joachim Mössner German	
17:30–18:10	Szent-Györgyi Room	Free paper oral presentations 6	Basic chronic pancreatitis	as per detailed conference program		
18:15–19:45	Seminar Room 4-5.	EPC Council meeting				
18:15–19:00	Foyer / mezzanine	Poster removal				

Program at a glance – Friday, June 30, 2017

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker
07:30–19:00	Foyer		Delegate registration		
08:00–08:30	Foyer / mezzanine		Poster hang-up		
08:30–09:00	Szent-Györgyi Room	Keynote lecture 2	Oncompass symposium	Is there hope for targeted therapies in pancreatic cancer?	István Peták Hungary
09:00–10:40	Szent-Györgyi Room	Free paper oral presentations 7	Basic and clinical acute pancreatitis	as per detailed conference program	
10:40–11:00	Foyer		Coffee break		
11:00–13:00	Szent-Györgyi Room	Symposium 4	Minimizing door to the needle time in acute pancreatitis	Early severity markers of acute pancreatitis	Steve Pandol USA
				Early intervention in acute pancreatitis	Marc Besselink The Netherlands
				Development of mitochondrial protection as a therapy for acute pancreatitis	Robert Sutton United Kingdom
				Early energy restoration in acute pancreatitis (The GOULASH trial)	Katalin Márta Hungary
13:00–13:30	Foyer / mezzanine		Poster viewing and lunch		
13:30–14:30	Foyer / mezzanine		Poster rounds and discussion 2		

Program at a glance – Friday, June 30, 2017

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker
13:00–14:30	Seminar Room 4-5.	ESPAC-4, ESPAC-5F, ESPAC-6, EURO-PAC-2 and Acelarate Studies meeting			
13:00–14:30	Hári Room		Pancreatology Editorial Board meeting		
14:30–16:00	Szent-Györgyi Room	Symposium 5	Past, present and future in pancreatology	Pancreatic physiology: back to the future	<i>Christoph Beglinger</i> Switzerland
				Pancreatology 2030: chances and challenges	<i>Hana Algül</i> Germany
				Best submitted basic science abstract presentation	<i>Isidoro Cobo</i> Spain
				Best submitted clinical science abstract presentation	<i>Thilo Hackert</i> Germany
16:00–16:20	Foyer		Coffee break		
16:20–17:30	Szent-Györgyi Room	Free paper oral presentations 8	Basic genetic and physiology	as per detailed conference program	
17:30–18:30	Szent-Györgyi Room		EPC General Assembly		
18:30–19:00	Foyer / mezzanine		Poster removal		

Program at a glance – Saturday, July 01, 2017

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker	
08:30–16:00	Foyer	Delegate registration				
09:00–10:40	Szent-Györgyi Room	Symposium 6	Lipases in pancreatitis	Lipases and other trypsin-unrelated culprits in pancreatitis	Heiko Witt Germany	
				Role of lipases in pancreatitis severity and outcomes	Vijay Singh USA	
				Fatty acid toxicity in pancreatitis	József Maléth Hungary	
				Carboxyl ester lipase (CEL) and pancreatitis risk	Anders Molven Norway	
				Mechanism of lipase mutations in chronic pancreatitis	Mark Lowe USA	
10:40–11:00	Foyer	Coffee break				
11:30–13:00	Szent-Györgyi Room	Keynote lecture 3	HaPanEU: the UEG-funded evidence-based guidelines on the diagnosis and treatment of chronic pancreatitis	Molecular pathophysiology of acute pancreatitis	Ole Petersen United Kingdom	
				Introduction	Matthias Löhr Sweden	
	Szent-Györgyi Room	Symposium 7			The HaPanEU process	Matthias Löhr Sweden
					Diagnosis	László Czákó Hungary
					Medical therapy	Enrique Dominguez-Munoz Spain
					Endoscopic therapy	Akos Pap Hungary
					Surgical therapy	Marija Boermeester The Netherlands
					Wrap-up	Matthias Löhr Sweden

Program at a glance – Saturday, July 01, 2017

Time	Meeting room	Presentation type	Topic	Lecture title	Speaker
13:00–13:10	Szent-Györgyi Room			Closing of the conference	
13:10–13:30	Foyer		Sandwich lunch for delegates attending the post-conference session		
13:30–15:30	Szent-Györgyi Room	Post-conference session	EBM Consensus Guideline meeting	Pediatric Pancreatitis 2017 UPDATE
